ADEBAYO OLAMILEKAN ABDULBASIT

FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

Motivated frontend developer and second-year Engineering Physics student at Obafemi Awolowo University (OAU), passionate about building modern, responsive web applications. Skilled in HTML, CSS, JavaScript and responsive UI development, with hands-on experience building real-world projects. Long-term goal: become a Full-Stack Developer specialising in website security and AI.

EDUCATION

B.Sc. Engineering Physics (In Progress) | *Obafemi Awolowo University (OAU), Ile-Ife*
2024 – Expected 2028

Second-year student with a strong foundation in physics, mathematics and problem-solving.

PROJECTS

AK Fashion E-commerce

nicevibe01.github.io/Ak-fashion

Responsive e-commerce site for a streetwear brand, featuring a product grid, customer testimonials and a pay-on-delivery flow.

Bread E-commerce Website

nicevibe01.github.io/Bread-Ecommerce-website-

Online store for Loaf Royal bakery, with product catalog, categories and a clear visual hierarchy.

Unified Search Engine

nicevibe01.github.io/Search-engine-

Search tool combining web, image and video results in one interface, integrating Google and YouTube.

GOALS & INTERESTS

Professional: Become a Full-Stack Developer specialising in website security, ultimately exploring artificial intelligence.

Personal: Problem-solving, building tech projects, teaching others in tech, and continuously learning modern web development.
